

Nature Committee Meeting

**Thursday, February 5th at 11am
Auditorium**

The topic of this presentation is “Bio-Retention and Storm Water Ponds”. What they are and why do we need them?

Come hear from Broadmead’s Vice President of Sustainability, Gina Mathias, on the topic of stormwater ponds and bio-retention and why these are important features of Broadmead’s campus.

There will be pictures, information on county requirements, and discussion about the ecological impacts. Be sure to bring your burning questions!
